NEGRO POLICE.-The Atlanta Intelligencer of Monday morning publishes a petition to the Council, signed by thirteen negroes, praying to have a negro from each ward of that city put on the police, which petition has been referred to the Com-MESSES. EDGERTON & RICHARDS, the well-known

Broad street drapers and tailors, have resumed their old business at their old stand. At this, we feel assured, their many friends will be highly pleased, as they now know where they can go with a certainty of getting swited.

REGISTRATION IN CHARLESON.—The following is the result of registration in the city up to date, (Saturday, September 14, inclusive.) Whites 3034, colored 4947-total 7981. Colored majority 1913. If the ratio of voters is as one to five of population, (the usual method of calculating,) 7981 voters would indicate the population of Charleston, to be as it would seem to the uninitiated. The members about 40,000. DR. P. GERVAIS ROBINSON, our most estimable the war and its result, were such that the last centownsman, we regret to learn, has left us for a more extended field in the Great West. He has selected St. Louis as the arena of his future sphere of usefulness. Dr. Robinson is one of the most talented of our young physicians, and has for sevetal years been connected with the Medical Col- that there are now in this city between thirteen lege in this city, as Professor of Anatomy in the Summer School, and, since the war, as Professor Extraordinary of the same branch in the College. His talents, his character, and his accomplishments, all entitle him to the first position whereever fate or fortune may appoint his future home. We regret to lose him; but if it is for his interest to go to the far-off West, we must be content with | by the regular census 'ker. giving him our best wishes, and assuring him of our confidence of his success.

OUR NEW YORK STEAM FLEET .- On the 1st of October, we shall have eight fine large steamers plying between New York and this port. The departures will be on Tuesdays, Th usdays and Saturdays-one steamer on each of the two first named days, and two on se last day from each port. This is to meet the large fall business, now near at hand. Messrs. Mosgan & Co. will run the Tuesday and Satu ay steamers, Messrs. GETTY the Thursday steamers, Messrs. LEARY also on Saturday. It is expected that another steamer will consort with the G. B. Upton on the Boston line, and a third steamer unite with the Falcon and Sea Gull from Baltimore. With these additions, and our two Philadelphia steamers, there will be fifteen steamers at work, a larger number than ever before.

The preparation is a mild and gentle that when we have been spared, by the goodness of a gracious Providence, from this and all other epidemic diseases, that we should endeavor to do all that is in our power to help those who are afflicted, and alleviate their sufferings. It was for this reason the Howard Association of Charleston

inquired of their sister society in Gaiveston if they It may, perhaps, not be amiss to state here, that the Howard Association of this city is a perma-

nent organization; but only so in name. It has its officers, but, if we are correctly informed, it is only in active operation during periods of epidemic disease. At other times it performs no functions, It has, therefore, at present no funds. Charleston has had the singular good fortune for several years (amid all the various forms of poverty and distress), of being altogether exempt from that particular species of public calamity, for the relief of which this Association was first called into being in this city. The present officers of the Howard Association are JAMES TUPPER, Esq., President; Dr. G. S. PELZER, Secretary, and W. ALSTON PRINGLE, Treasurer.

GENTLEMEN: I used, during the past season, one of 'Ingersoll's Portable Cotton Presses,' purchased of you list september. I have always been prejudiced in favor of the "Screw Press," and nothing but dire necessity induced me to try any other. I take pleasure, however, in adding my testimony in layor of its entire adaptation to the wants of a cotton plantation. It has surpassed my most sanguine expectations. I have packed with but two hands, yet I prefer four—two at each lever. My bales all weighed over 500 lbs. The first lot I sent to market averaged 562 lbs. My impression is that 500 lbs is about the capacity of the Press, and a greater number of pounds subject the follow-block to too much risk, unless the sides of the cotton box was increased. It would add greatly to the value of the Press if the cotton box was ten inches longer. In haste, I am, very respectfully. Your obedient servant, &c., B. W. LAWTON. P.S. I took my Press down and carried it some four miles to pack the crop of a neighbor, who failed to have a "Screw" built; he was so much pleased that he has determined to abandon the "Screw" and purchase. Gentlemn: I have just received your letter of Februar, 14th—upon my return to this place, after an absence of two months—and this reply may be too late for your "Descriptive Circular of Ingersoll's Cotton Press."

The Press I used in packing my cotton last year worked admirably, packing, with ease from 500 to 526 life. With good active hands to work it. I am satisfied that from eighteen to twenty bales might readily be packed in a day.

This Press combines the advantages of lightness, and consequent portability and simplicity (being easily managed by any one of ordinary intelligence). Great compressing force, with little motive power, and "last, but not least," it is worked entirely by hand, thus saving for the farm horses the hard labor imposed upon them by the use of the ordinary "Serew."

Respectfully, &c., yours.
